DATE: 1 November 1983

TO: Director of Central Intelligence
Chairman, DCI Advisory Commission on Counterintelligence
Analysis

FROM: Edward J. O'Malley,  Chairman
DCI Committee on Hostile Intelligence Threat Analysis (HITAC)

SUBJECT: HITAC Committee Report to the DCI Advisory Commission

1. By communication dated 12 August 1983, the HITAC group was charged to review and validate for the DCI the "DCI Study on Intelligence Community Counterintelligence Analysis Efforts," prepared by the Community Counterintelligence Staff of the Intelligence Community Staff (CCIS/ICS). In addition, the HITAC was asked to review the Intelligence Community analytical production in an effort to identify shortfalls and weaknesses and to recommend to the DCI areas in which improvement can be achieved.

TOP SECRET

SECRET**THE DCI COMMITTEE ON HOSTILE
INTELLIGENCE THREAT ANALYSIS (HITAC)**

By communication dated 12 August 1983, the HITAC was created by the DCI and is composed of the following members:

Chairman: Mr. Edward J. O'Malley, FBI
 Members: Mr. John F. Donnelly, ODUSD(P)
 [] NSA/DO
 Mr. Dennis Kux, State/INR
 Brig. Gen. Donald Goodman, DIA
 Mr. Robert Gates, CIA/DI
 [] CIA/DO

25X1

25X1

The Committee was charged with reviewing and validating for the DCI and the DCI's Advisory Commission on Counterintelligence Analysis, the "DCI Study on Intelligence Community Counterintelligence Analysis Efforts," prepared by the Community Counterintelligence Staff of the Intelligence Community Staff (CCIS/ICS). The HITAC was also charged with examining the counterintelligence analytical production of the Intelligence Community to identify shortfalls and weaknesses, and to recommend to the DCI areas in which improvement could be achieved. []

**DCI STUDY ON INTELLIGENCE COMMUNITY
COUNTERINTELLIGENCE ANALYSIS EFFORTS**

The CCIS, when requesting input for the study, contacted all organizations with representation on the HITAC. Responses from these organizations have been incorporated into the final CCIS report. This has enabled HITAC members to be involved in the preparation of the study from the outset, through their individual agency perspective, to its conclusion, as a HITAC member reviewing the finished study as requested by the DCI. []

25X1

There was general consensus on the part of HITAC supporting the CCIS analytical study. Committee members have been given the opportunity to express any opposing views which are attached to this report. []

25X1

The HITAC, after reviewing the CCIS study, concluded that it is valid and presents the Intelligence Community counterintelligence analysis in a clear, logical, and orderly manner. Components of the Intelligence Community have their current analytical activities succinctly and accurately stated. The study succeeds in dispelling confusion which has existed in the past over

terms utilized in the counterintelligence analytical process within the Intelligence Community. [REDACTED]

25X1

The HITAC particularly agrees with the study position concerning the value of using the multidisciplinary analytical approach in analyzing and combatting the hostile intelligence threat. The study quotes the May 1978 Multidisciplinary Baseline Report, which stated that all organizations within the Intelligence Community are performing multidisciplinary analysis in response to their internal needs. The HITAC supports the conclusion of the study that this is still true today and that Intelligence Community agencies perform a variety of analytical activities using various descriptive titles and methodologies. These analytical activities are performed for individual agency internal needs as well as for both inter-Community needs and national multidisciplinary assessments. [REDACTED]

25X1

The study stated the Intelligence Community believes that within the existing structure, all necessary elements already exist to meet the requirements of national-level multidisciplinary analysis. The HITAC is in agreement with this statement, along with the overall theme of the study that the value of the multidisciplinary approach to counterintelligence analysis is recognized and is being used by the Community. [REDACTED]

25X1

In conclusion, the HITAC commends the CCIS-directed analytical study to the DCI's Advisory Commission on Counterintelligence Analysis as a product accurately reporting the views of the Intelligence Community agencies who contributed to the study. [REDACTED]
